

J. DOUGLAS SUMMA
PARTNER
PRICEWATERHOUSECOOPERS
NEW YORK, NY

Doug has over twenty years of experience advising clients on a spectrum of financial and risk management issues related to market and credit risk and capital measurement. He has assisted numerous global financial institutions with the development of risk management frameworks and in the successful implementation and execution of a best-practices approach to risk management and measurement. He has extensive knowledge of the capital markets, cash and derivative fixed income and equity products, and related trading strategies and advises clients on risk management techniques for market and credit risk, limit setting, valuation models, capital attribution and performance evaluation.

Doug is responsible for PwC's Financial Analytics Group that specializes in addressing a broad range of valuation and risk measurement issues for a broad range of fixed income, foreign exchange, equity, credit and commodity products. Doug's clients include investment banks, global and super-regional commercial banks, insurance companies, asset managers, government sponsored enterprises, mortgage companies and energy merchant trading firms.

Doug's recent projects include comprehensive reviews of the risk management framework implemented by a broad range of leading institutions, conducting a number of surveys of best practices related to mark-to-market and valuation adjustments for financial instruments including derivatives, assisting in structuring credit enhanced derivative and energy products companies, developing comprehensive documentation of valuation models related to OTC derivative products for a leading global investment bank, developing and designing a risk-management framework and capital allocation procedures for the equity derivatives and asset trading books of a leading foreign bank.

Prior to rejoining PwC Doug was a manager of securitization for GE Capital Corporation, structured and negotiated a number of securitization and structures of varying types of assets including credit card and automobile receivables.

Doug has an M.B.A. in Finance and Accounting from Columbia Business School and a B.A. in Political Science from Columbia College. He is on the board of directors of the International Association of Financial Engineers and is a Certified Public Accountant with the American and New York Institute of Certified Public Accountants. He was also a member of the Working Group for Group of Thirty's paper on "Enhancing Public Confidence in Financial Reporting."
